

Meridian CardioVascular Network

Everything You Need for Your Heart and Vascular Care

Accountable Care Organization

Collaboration among physicians, nurses, clinicians and sites to ensure high quality, improved coordination and efficient services through engagement of Medicare Fee-for-Service patients.

Geisinger Gold

Comprehensive Medicare insurance coverage includes wellness programs, extensive disease management, affordable rates and high quality care from the physicians and hospitals you trust.

Network of Primary Care Physicians in Your Community

This is where it begins...family practice physicians and internists working side by side with the Network's heart and vascular specialists to guide patients through every step of care.

Clinical Trials

Heart specialists offer promising treatment options to our patients first.

Evidence-Based Care

Richard Hader Institute for Clinical Integration provides an interdisciplinary approach to patient-centered care.

World-Class Consumer Library

Research librarians assist you in searching out medical info, free.

Training Tomorrow's Doctors

Anchored by an academic medical center, this is where tomorrow's physicians are trained.

Meridian At Home

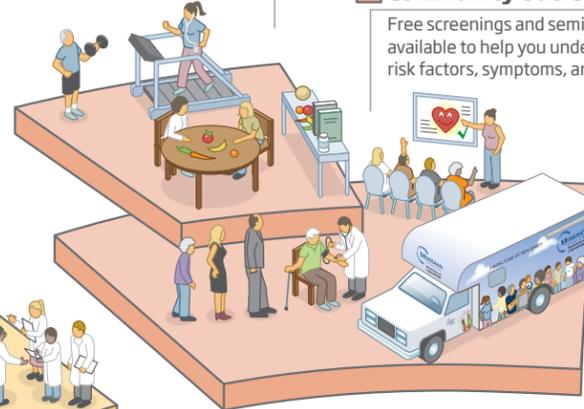

Most complete range of in-home personal assistance and technology solutions, including safety monitoring and medication management tools.

Health & Wellness Products

High-quality medical equipment, oxygen, and supplies delivered to your doorstep.

Fitness & Nutrition

Fitness and wellness experts focus on your heart health. Fitness Centers near your work and home.

365 Days of Heart

Free wellness newsletter, fun recipes, Women's Heart Connection, Heart and Sole Cup and online communities for you to take control of your health. AngioScreen to help you know your risk factors for cardiovascular disease and stroke.

Community Outreach

Free screenings and seminars are available to help you understand risk factors, symptoms, and more.

Research & Education

Prevention & Wellness

Diagnosis

Treatment

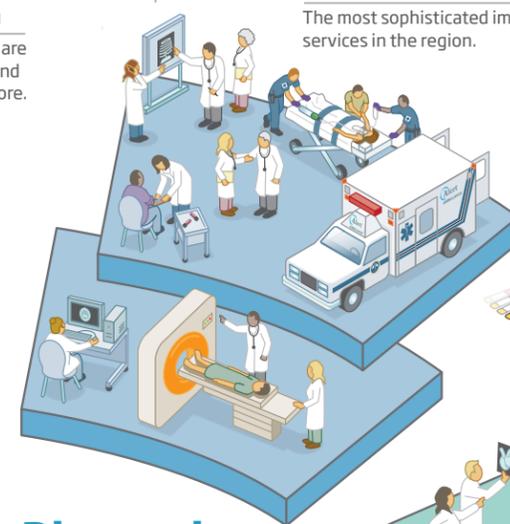

Leading Network of Physicians

More than 2,000 physicians are affiliated with Meridian, including nearly 400 cardiovascular subspecialists and outpatient diagnostic centers near you.

State-of-the-Art Imaging

The most sophisticated imaging services in the region.

Chest Pain Centers

Experts collaborate to ensure rapid diagnosis and treatment of heart attacks...every Meridian hospital has achieved national recognition.

Emergency Services

EMS teams transmit EKG results to our Emergency Rooms...saving time to save heart muscle...leading to better outcomes.

One of the Nation's Most Wired Health Systems

Among the nation's first systems where physicians use computers to enter patient orders and transmit images to reduce errors...improving treatment, care, and outcomes.

Magnet Award-Winning Nurses

First health system in the country to achieve Magnet recognition thanks to outstanding nurses.

Cardiac Surgery and Valves

Our cardiac surgery center – has outcomes that rival the nation's best, with one of the most experienced team of surgeons anywhere and one of select programs in the country transforming care with TAVR.

Congenital Heart Disease

Leaders in pediatric and adult structural heart defects help manage active lifestyles.

Heart Rhythm Center

The region's most advanced center for the treatment of heart arrhythmias...from complex ablation procedures to implantable pacemakers, ventricular assist devices and defibrillators.

Life-Saving Emergency Angioplasty

Four hospitals experienced at performing emergency angioplasty, a life-saving difference, including the largest one in New Jersey.

Cardiac Catheterization

The tri-state's most experienced interventional cardiologists providing nonsurgical options to treat heart and peripheral vascular disease.

Vascular Services

State-of-the-art endovascular labs with renowned vascular specialists performing minimally invasive procedures and surgical options for the complete range of vascular care.

Support Groups

Numerous support groups, including Mended Hearts, assist patients and their families in their journey back to health.

Skilled Nursing, Sub Acute & Acute Rehabilitation Facilities

Therapeutic and rehabilitative care in specialized facilities helping you transition to regular activities.

Outstanding Cardiac Rehab

Comprehensive rehabilitation available at all our hospitals, with one goal: a faster recovery and improved quality of life.
