

# HACKENSACK MERIDIAN PALISADES MEDICAL CENTER

## 2023 FUNDRAISING PRIORITIES

Hackensack Meridian Palisades Medical Center has met the changing health care needs of the community it has served for more than 40 years. Today, Palisades Medical Center serves a population of more than 450,000 in Hudson and southern Bergen counties and prides itself on continually providing quality, expert care in a safe environment.

### **EXPANDING AND PROVIDING CRITICAL CARE THROUGH THE EMERGENCY DEPARTMENT**

Providing emergency care to our communities is critical. Today, the department serves more than 52,000 people annually. An expansion and enhancement of the Emergency Department will allow us to provide critical, high-quality care to our patients efficiently and safely.

### **New and Improved Exam Rooms**

Renovating individual exam rooms will offer patients greater privacy and reduced wait times. Upgraded rooms will include technology that allows the clinical teams to place immediate orders and testing for our patients.

### **Dedicated Spaces for Pediatric and Behavioral Health Patients**

Creating new spaces for our youngest and most vulnerable behavioral health patients ensures that they can receive emergency care in settings designed specifically for their unique needs.

### **IMPROVING OPERATING ROOM TECHNOLOGY IN SURGICAL SERVICES**

At Palisades Medical Center, the Surgical Services department is a priority service line, with expertise in multiple specialties, including: urology, endoscopy and bariatric surgery utilizing laparoscopic and traditional techniques. It is critical to provide the surgical team with the most advanced technology to ensure the best care and recovery for patients.

## GROWING SPECIALTIES IN OUR MEDICAL OFFICE BUILDING

To meet the growing needs of our community, we are developing two additional suites in our Medical Office Building that will include new equipment, larger patient rooms and waiting spaces for those needing care in endocrinology, neurology, pulmonology and nephrology services.

## SUPPORTING GREATEST NEEDS IN VARIOUS DEPARTMENTS

Palisades Medical Center was built by philanthropy more than 45 years ago. That legacy lives on as our community continues to believe in the critical need for health care *and* our frontline team. An unrestricted gift to Palisades Medical Center, or a gift supporting a specific department or fund, such as Community Outreach, Behavioral Health or another, allows the medical center to prioritize patient care and the patient experience above all else.
